

TOWARDS A COMPETITIVE AND SUSTAINABLE NANOFABRICATION INDUSTRY

SUSNANOFAB is a concerted and long-term action on nanofabrication that will establish a robust and sustainable network.

SUSNANOFAB tackles the missing links between policy, infrastructure, expertise and industry requirements worldwide.

ACTION PLAN

STRATEGIC LEVEL

Deliver an EU-wide Strategic Roadmap on Nanofabrication developed under 3 cooperation groups

CG 1

Nanofabrication aspects from design to manufacturing upscaling

CG 2

Environmental sustainability, health & ethics

CG 3

Future skills & expertise

- Match-making tool for tech providers and potential customers

- Repository of valuable data to all interest actors in the ecosystem

OPERATIONAL & END-USER LEVEL

Develop an Open Access Digital Platform working as developed under 3 cooperation groups

Start Date: 01 March 2020
 End Date: 28 February 2023
 Type: H2020 | CSA Coordination & Support Action
 Grant agreement ID: 882506
 Funding Agency: EU-EC
 Funding Programme: H2020

PARTNERS:

Brown University Georgia Tech Research Corporation
