

## EMMC symposium Practical guidelines to translation

V. García Navas, O. Gonzalo, I. Quintana, J. Lambarri and A. Igartua

Glasgow, June 14, 2018

**Afternoon Session**

## Practical tips to translators

- Normally SME people are not experts in material science. Need to find a common language
- Have a good knowledge of the process chain
- The decision-maker should understand and agree with the model's assumptions
- Involvement with the project
- Try to secure external funding. There will be more room for experiments, material characterization, validation, etc.

¡Eskerrik asko!

¡Gracias!

Thank you!
